OBJECTIVES

I am a MERN Stack Developer with proven expertise in building and deploying scalable web applications using React.js, Node.js, Express.js, and MongoDB. I have demonstrated success in leading end-to-end development for high-impact projects, implementing secure RESTful APIs, and enhancing user experience through intuitive, responsive interfaces

EDUCATION

B.Tech in Information Technology - CGPA 8.1* 08/2022 – 05/2026
Sri Shakthi Institute of Engineering and Technology, Anna University Coimbatore

Higher Secondary School - 82.5% 05/2021 – 05/2022
Nadar Saraswathi Higher Secondary School Theni

Secondary School - 78.4% 05/2019 – 05/2020
Nadar Saraswathi Higher Secondary School Theni

TECHNICAL SKILLS

Axios | CSS | Git | GitHub | HTML5 | Java | JavaScript | JWT | MongoDB | Mongoose | Postman | React | REST API | Tailwind | Vercel | Node.js | Express.js | MySQL

LANGUAGES

English   Tamil

CERTIFICATES

React | Express - UNSTOP, GitHub - UNSTOP

AREAS OF INTEREST

MERN Stack Development | React.js Development | Java

PROJECTS

Turf Hub 🔗 05/2025 – 07/2025
Online Turf Booking System
- Designed, developed, and deployed a comprehensive sports turf booking platform using the MERN stack
- Implemented JWT authentication and RESTful APIs to handle secure bookings and user management
- Integrated frontend and backend to provide seamless user experience for players and facility managers

Smart Contact Book 🔗 03/2025 – 04/2025
- Created a smart digital system for securely storing, managing, and searching contacts
- Implemented features like add, edit, delete, tagging, and backup
- Designed a user-friendly interface for easy interaction

STRENGTHS

Adaptability | Team Collaboration | Time Management | Work Ethic | Problem Solving
